

Tony Coombs, President and CEO, TCAssociates, is a former Recon Marine Pilot and is a trained Special Forces sniper. After attaining telecommunication engineering training he worked for IBM and other large technology companies. In 1998, he established this Information Technology/Health Care Delivery Services Company. TCA provides services to customers not only US-wide but internationally. Clients include: USDA, Veterans Affairs, DOD and others. In AUGUST 2007 TCAssociates was included on Inc. Magazine's 500 list, celebrating the fastest-growing private companies in America.

Randy Williams, Director of Business Development, COACT, has taken this SDVOSB from **5M to 22M during the last 2 years**. COACT, established in 1990, is a leading security testing and evaluation center. It is one of the only small businesses that have achieved a level 7 Common Criteria requirement, which is the highest security level that can be obtained in the Federal Government. Clients include: USDA, Missile Defense Agency, GSA and others.

Thomas Dalton, CEO, TDG, Inc. founded this SDVO, HUBZone small business in 2002. As a result of the quality work they performed under their BPA, TDG increased its visibility within USDA and was invited to bid on and win a large prime contract with the U.S. the Forest Service. The BPA has been instrumental in helping this SDVOSB to establish past performance and develop a reputation within USDA that begets more work. TDG is small but continues to grow because of its satisfied customers. Other customers include: Department of Commerce, Department of Housing and Urban Development, the US Army, and others.
